

Dr. C. Arun Kamal Presentations from 2014

SCIENTIFIC PAPER PRESENTATIONS:

1. Presented Dr. Bakshi's gold Medal paper titled "Outcomes of burst Olecranon fractures with elbow instability" IOACON 2019 Conference at Kolkata, India.
2. Presented Dr.A.A.Mehta medal paper on "Outcomes of terrible triad elbow injuries treated with the single lateral approach". At 63rd Annual conference of Indian Orthopaedic Association, Coimbatore, November 2018.
3. Faculty and organizing team member on 5th Ganga Operative Trauma Course (GOTC), June 22nd to 24th 2018. Presented paper titled "Tips and Tricks in Interlocking nailing of lower limb fractures"
4. Presented medal paper titled - "Outcome of posterior malleolus fractures in tri-malleolar ankle fracture-dislocations fixed with Antero-posterior screws vs posterior plating". 51st Annual Conference of Tamilnadu Orthopaedic Association, Nagercoil, Tamilnadu, February 2018
5. 50th Annual Conference of Tamilnadu Orthopaedic Association, February 2017 at Coimbatore. Presented Prof.P.Dhanarajan medal paper titled "An Innovative technique for treating complex elbow injuries with single lateral window"
6. 4th Ganga Operative Trauma Course June 2016 at Coimbatore "Tips and Tricks in Interlocking nailing of Tibia"
7. 48th Annual Conference of Tamilnadu Orthopaedic Association, February 2015 at Salem. "Factors influencing outcome in Ipsilateral Femur neck with Femur shaft fractures- an analysis of 35 cases"
8. "Outcome Analysis of Proximal humerus fracture dislocation with Axillary extrusion of humeral head- A study of 20 cases". IOACON 2014 at Hyderabad
9. "Outcome Analysis of 4 part fractures of the proximal humerus with axillary subluxation." TNOACON 2014 at Chennai

Scientific Paper Publications:

1. Successful reimplantation of extruded long bone segments in open fractures of the lower limb-a report of 3 cases. Injury. 2015 Jul; 46(7):1389-92
2. Variation in practice preferences in the management of open injuries of extremities—an international survey by SICOT research academy. International Orthopaedics (SICOT). October 2016

3. Classification of distal femur fractures and their clinical relevance. Trauma International Journal, April 2016
4. A surgical algorithm for the management of recalcitrant distal femur nonunions - Experience from 62 cases. Arch Orthop. Trauma Surgery 2019
5. Comparison of radiological outcome of unstable intertrochanteric femur fractures in elderly patients treated with Indian Vs Foreign cephalomedullary nails. Journal of Clinical Orthopaedics and Trauma, March 2019
6. Posterior Malleolus Fractures in Trimalleolar Fracture Dislocations of the Ankle Fixed with Anteroposterior Screws vs Posterior Plating: A Clinical Outcome Study. Journal of Orthopedics and Joint Surgery, Volume 1 Issue 1, July–December 2019
7. The role of a trauma review system and development of intraoperative checklists in improving the quality of fracture fixations in a high volume tertiary center. European Journal of Trauma Emergency Surgery, 2020

Webinar Presentations:

1. Ipsilateral femur neck with shaft fractures (Single implant vs Double implant) September 26th 2020
2. Distal femur fractures part-1. Case discussions on complex distal femur fractures- June 23rd 2021
3. Redo surgeries with case scenarios of failed neck with femur shaft fractures- July 16th 2021
